

INVOICE MANAGEMENT

Elemica SmartLink Customer Management Application

How much time does your organization really spend processing invoices and resolving issues?

Current invoicing practices have room for improvement. Paper invoices produce extra costs and are error prone. They can also be routed to the wrong person or department, or rejected because of data problems.

Cloud based solutions offering fast and easy implementations with the flexibility to adapt to your dynamic business needs.

Better cash flow and faster payments

Improves contract and regulatory compliance

Reduces Days Sales Outstanding (DSO)

\$3-\$6 invoice cost reduction

Eliminates data keying and associated errors

Increased customer responsiveness

Eliminates 4 process steps

Provides secure connectivity

Supports EU VAT invoice requirements

Validates data on the invoice

Invoice matching capabilities

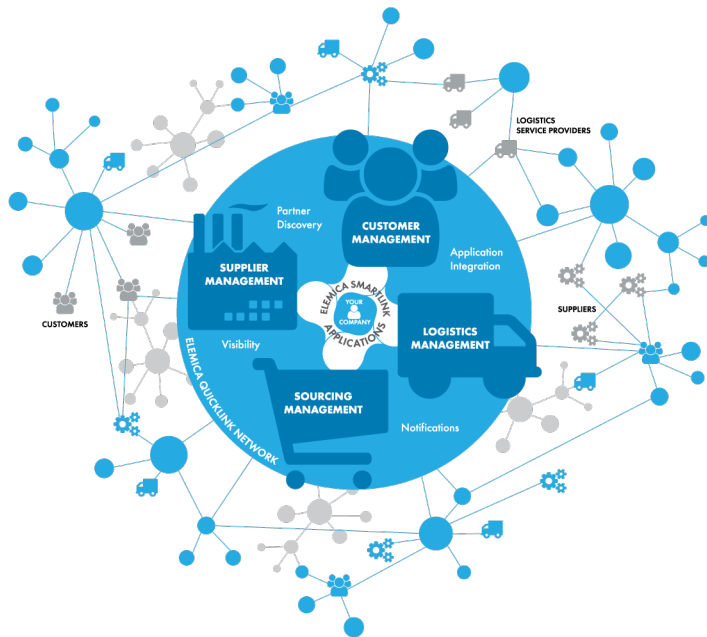

Secure EU compliant invoice archive

System and trading partner diversity

Elemica's Invoice Management solution eliminates data errors and drives a high rate of 'first time right invoices'. Automating processes with Elemica will improve critical financial transactions that close out your sales and logistics cycles.

With Elemica Invoice Management, your business realizes reduced costs, decreased cycle times, decreased errors. It also keeps you in compliance with government mandates. We eliminate printing, stuffing envelopes, stamping, mailing, receiving, opening envelopes, bar-coding, scanning, manual routing and disposing of paper. Though Email and fax solutions may eliminate some short term issues, they are not part of a comprehensive inter-company automation strategy to drive continued improvements over time. Elemica Invoice Management lets you quickly and easily convert from paper to electronic invoicing in just a few weeks.
