

SUPPLIER MANAGEMENT

Elemica SmartLink Application Suite Overview

Are you maximizing working capital costs while also improving material quality and scheduling?

Collaborative supplier relationships result in an inbound flow of materials and services arriving at the right place at the right time driving the ideal balance of inventory, working capital, and service levels.

The largest industry-specific supplier collaboration network with cloud-based solutions for automating your supply chain processes.

Benefits

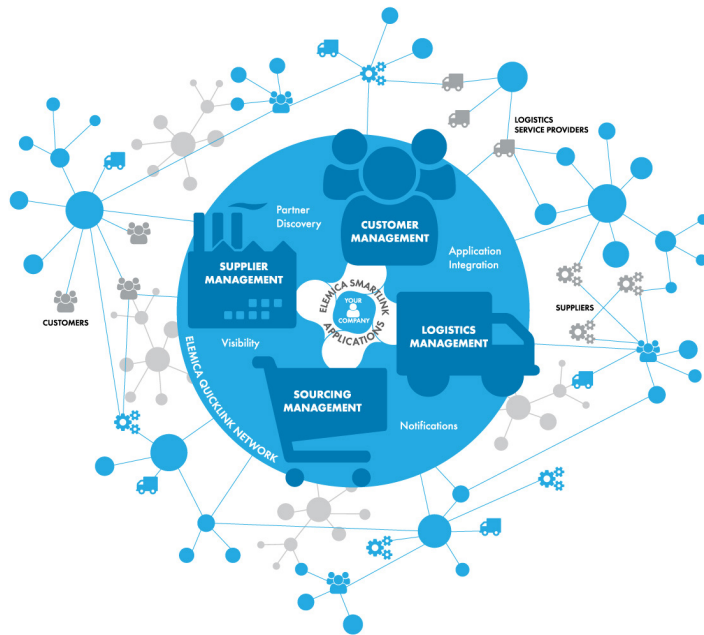

- Reduces transportation costs & disruptions
- Lower working capital requirements
- Improved material scheduling
- Automating goods receipt
- Increasing accounts payable performance through reducing invoice errors
- Capturing early payment discounts

Key Capabilities

- Global supply chain and relationship management via a single application
- Supports a portfolio of international message standards
- System and trading partner diversity
- Business process and technology orchestration
- Tax and compliance capabilities (US, EU)

Elemica's Supplier Management Suite solution extends your ERP system with your trading partners which enables you to optimize processes, any where in the world. Your suppliers inherently have variation in their business processes and information technologies. We remove the challenges of this variability and enable error-free automation with virtually no change in behavior.

Supplier Management Solution Suite Overview

Elemica Supplier Management delivers results that drives the ideal balance of inventory, working capital and service levels while providing innovative capabilities:

Purchase Order Management:

Eliminates the risk of small errors with manually entered orders.

Vendor Managed Inventory:

Provides supply visibility across customers and products.

Delivery Forecast:

Furnishes the supplier with discreet orders, order changes, and forecast documents.

Global Supply Management:

Supports automation, visibility, management and analysis for shipments and inventory across global supply chains.

Certificate of Analysis (CoA):

Attest or affirm the provided quality data is correct for a given product.

Invoice Management:

Electronic invoicing for material, service and freight invoices.

Transforming the Way Your Company Does Business

As the leading Supply Chain Operating Network for the global process industries, our customers create and operate high performance supply chains with solutions at the heart of their business. Elemica drives bottom line business results by promoting reduced cost of operations, faster process execution, automation of key business processes, removal of transactional barriers, and seamless information flow between business partners. We transform supply chains by replacing manual and complex approaches with automated and reliable ones.
