

INTEGRATION ACCELERATOR

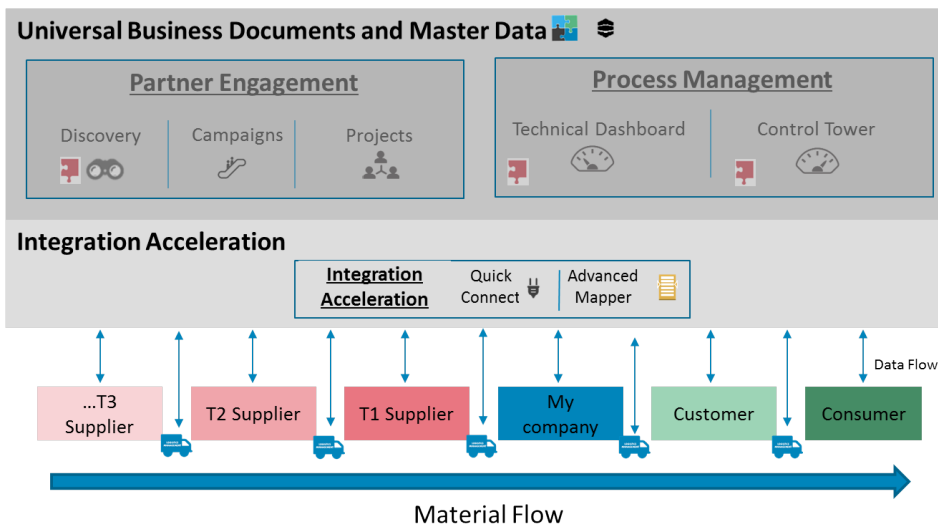

Elemica QuickLink Network Solution

What if your business could communicate with any trading partner regardless of their language?

Elemica's Integration Accelerator allows you to connect and communicate effectively with nearly any trading partner in a truly agnostic way. This powerful capability allows you to overcome a wide range of technological barriers to integration across your trading partners - large or small. Conducting commerce, securely and reliably, with a critical mass of customers, suppliers, and logistics service providers gives you a real competitive advantage.

Elemica's QuickLink Network is the secure, reliable communication backbone for your extended supply chain.

Benefits

- Data validation and multi-message business rules
- Process-friendly data structures
- Fewer data maps and standards to maintain
- Single data communication connection and format

Key Capabilities

- Secure, standardized ERP connections
- Optimum programming flexibility
- Minimal impact to trading partners
- Highly configurable

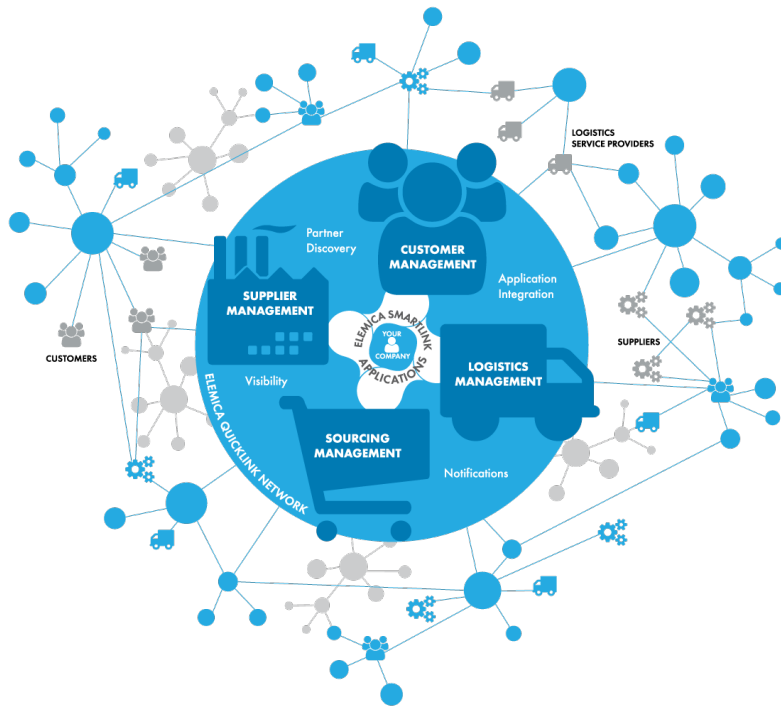

Elemica's QuickLink Network is a 'Come As You Are' platform. Utilizing leading edge technology and resources, Elemica automates the translation and transport of your data in order to on-board partners quickly and accurately.

QuickConnect is a leading edge connectivity tool to rapidly automate various trading partner systems in the marketplace. It supports the full range of connectivity mechanisms ranging from AS2 to sFTP to SOAP to WSDL and more.

Advanced Mapper supports data validations, transformations, and enrichments into and out of the platform's common data store. Send us what you have; a custom file, CIDX, cXML, Edifact, IDOC, PIDX, x12, and more, and then we will take care of the rest.
