

QUICKLINK NETWORK

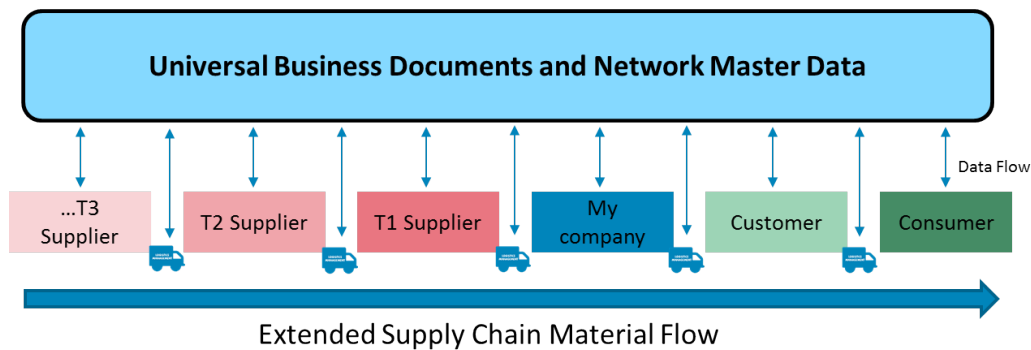

Elemica QuickLink Network Solution

What would removing technology from the critical path of process innovation mean to your business?

You have a mission critical network of customers, suppliers, manufacturing locations, distributors, warehouses, logistics providers and more. The goal is to get your products to the right place, at the right time and with the right price, all while procuring the best raw materials, minimizing waste, improving quality, and reducing costs.

Elemica's QuickLink Network is the secure, reliable communication backbone for your extended supply chain.

Benefits

- Faster, easier implementations
- Accelerated connectivity & mapping
- Lower costs to automate
- Faster time to value
- Cleaner, more actionable data
- Improved visibility and audit-ability

Key Capabilities

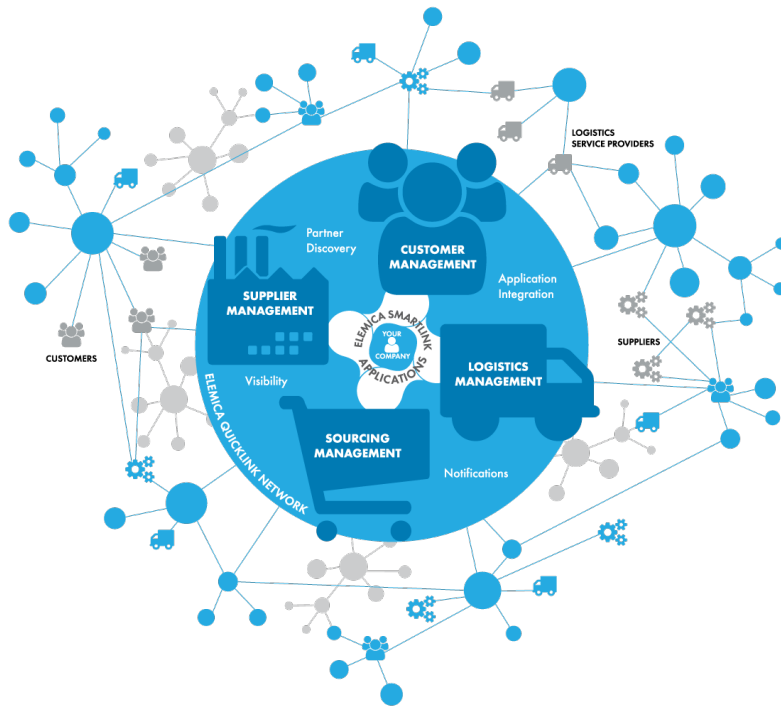

- Broad business message support
- Secure, multi-channel communications
- Highly configurable
- Network Master Data Management (MDM)
- Data validation and enrichment
- Multi-message business rules
- Highly available; inherent disaster recovery

Elemica's QuickLink Network platform brings the Supply Chain to your enterprise, automating communications across customers, suppliers and logistics service providers in a highly reliable, efficient, and secure way. Once connected to QuickLink, key supply chain business processes are powered by Elemica's suite of SmartLink Applications.

To ensure client success, a 'Come As You Are' approach is built into the network platform's design, transforming the transactions between partners so that they work seamlessly across disparate systems, processes, and technological capabilities. When you are highly agile and flexible to work with, and can meet your trading partners on their terms - business is transformed.
