

Elemica 2018 Test Environment Certificate Change FAQ

What's Changing

Elemica has four digital certificates that will be renewed on June 12th, 2018 at 10AM ET for the following TEST connections:

qlconnect.cob.elemica.com
preprod.connect.elemica.com
quickconnect.cob.elemica.com
wmttest.elemica.com

How will this affect my company?

The connectivity to these locations are for Elemica's test environments. If you are proactively testing you will need to update the certificates in order to stay connected.

What action need to be taken by you

Please check your current connectivity(s) with Elemica to determine if actions are needed. Depending on how you are connected with Elemica, you may have more than one certificate to update.

** The new certificate chain contains new CA and Root certificates that needs to be installed. Please make sure a cache refresh/restart is performed after certificate change.*

For more information on each connection, please click on the hyperlinks below

qlconnect.cob.elemica.com
preprod.connect.elemica.com
quickconnect.cob.elemica.com
wmttest.elemica.com

Where to obtain the certificates

Log-in to the FTP site, download the certificates files as needed.

FTP Site: ftp://ftpclientaccess.elemica.com

User Id - elemtestcert

Password - 76KM/LeXH8

Please see the information provided in the FAQ below for the filename that is applicable to your connection.

Is there anything else changing?

This change is only limited to the certificates for the four connections listed above.

qlconnect.cob.elemica.com

IP: 76.74.49.169

Current Public Certificate Detail	New Public Certificate Detail
	FTP Filename: qlconnect.cob.elemica.com_20200706_TEST.zip
Serial: 61 d3 69 92 a0 2b 80 4d a1 b6 d5 ca 3d 05 75 7f Expiration: Saturday, July 07, 2018 7:59:59 PM ET (GMT -4hrs) Subject: CN = qlconnect.cob.elemica.com OU = IT O = Elemica, Inc. L = Wayne S = Pennsylvania C = US	Serial: 05 47 2e ed 4d 2b 46 b7 22 2e 0e 05 0a f9 dc a4 Expiration: Monday, July 06, 2020 8:00:00 AM ET (GMT -4hrs) Subject: CN = qlconnect.cob.elemica.com OU = IT O = Elemica, Inc. RSA Key: 14:8f:5d:7f:ca:1c:7a:ad:63:c2:5d:f5:13:77:66:de	RSA Key: a3:8f:eb:91:d3:01:fc:08:c8:c8:3c:c3:42:3d:ee:06

FTPs and SFTP/SSH

If you are pulling / pushing to Elemica, action is required. Depending on your application, which may prompt you to manually accept the new certificate/RSA key for first and later use after the changes have been completed at Elemica. In some applications you will need to delete the old certificate/RSA key before your application prompts you to accept the new certificate/RSA key.

No action if Elemica is doing the message pulling/pushing to your application.

HTTPS, AS2 or ebXML

If you are connected to qlconnect.cob.elemica.com via HTTPS, AS2, or ebXML you are required to update the certificates. For AS2 – this certificate is for https connectivity, signing, and encryption.

Elemica's AS2ID: 878542765HT or 878542765T

*Please be advised the above AS2IDs are for reference only. You must verify which Elemica AS2ID is associated to the current certificate before changing.

Special Directions for RNO/RNIF

RNO partners will need to update two different certificates.

Elemica Test Environment Certificate Change 2018

1. Connectivity / ssl authentication – qlconnect.cob.elemica.com
2. Signing
Please update the certificates if you are using the following:

Current	New
